DHIVYA R

Data Analyst | B.Tech, Artificial Intelligence And Data Science

+91-9080357746 | dhivyaramesh71@gmail.com | LinkedIn | Github

PROFESSIONAL SUMMARY

Aspiring Data Analyst with a B.Tech in Artificial Intelligence and Data Science and practical proficiency in **SQL**, **Python, Power BI,** and **Tableau**. Proven ability to turn raw data into actionable insights through projects like a Sales/Customer Analytics dashboard and Movie Analytics dashboard, plus exposure to real-world ML applications. Combines technical skills with internship experience in web development and software trainee roles to deliver clear, data-driven solutions.

AREA OF EXPERTISE

Language: Python, SQL

Machine Learning: Predictive Modeling, ML-based System Design

Visualization: Power BI, Tableau

Data Cleaning & Preprocessing

Dashboard Development & Reporting

Other Tools: Excel,Jupyter,Notebook

PROFESSIONAL EXPERIENCE

Web Developer Intern | Rekoodu Technologies **Feb - March 2026**

- Developed and maintained responsive web pages using HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Collaborated with the development team to implement UI features based on client requirements.
- Assisted in integrating APIs and handling basic data flow between frontend and backend components.

Junior Trainee | United Soft Tech Company **Sep - Nov 2025**

- Assisted in analyzing and organizing data sets to support internal reporting and decision-making.
- Supported the team in preparing documentation and process reports under senior guidance.
- Gained hands-on exposure to tools/technologies used — e.g., **SQL, Excel** for data handling tasks..

KEY PROJECTS

Blinkit Sales Analysis Tools:Python|Pandas| Matplotlib| Seaborn

- Cleaned and analyzed **8,500+** retail sales records, standardizing inconsistent data and computing key metrics total sales, average rating, items sold and identifying sales trend analysis across item type, outlet size, and location tier.
- Built pie charts and bar plots to visualize sales distribution and identify top-performing categories and outlet formats.

Employee Attrition Analysis & Prediction Tools:SQL| Python| Scikit-learn| Power BI

- Cleaned and analyzed **10,000+** employee records using **SQL and Python**, identifying department-wise attrition patterns through exploratory data analysis.
- Built a Logistic Regression model 80% accuracy to predict high-risk employees, providing HR teams actionable insights to improve retention strategies.

EDUCATION

Bachelor of technology in Artificial Intelligence and data Science | CIET Nov 2022- May 2026

CGPA-8.45 | Coimbatore , Tamil Nadu

Mount Park Higher Secondary School July 2021 - Jun 2022

HSC-88.16 | Thiyagadurgam

ADDITIONAL INFORMATION

- **English:** Fluent | **Tamil:** Native
- **Certifications:** Foundation of cloud IoT Edge ML completed in NPTEL(75%).
- **Awards/Activities:** Secured 2nd position in Basketball at Anna University Zonal Sports Tournament 2024–2025, representing the college team
